Venango Crossing Bridges Program making applesauce and cookies!

For STEP in CJ, Ben did a work based assessment at Doc G's. Doc G's is a microbrewery in DuBois. Once a month they can their Orange Blossom Wheat beer. Ben participated in the canning, in return he received a free t-shirt. The cans were placed on a conveyer belt and put through the canning mechanism. It then went across the conveyer belt where it was packed forward facing, then had the black plastic to hold the cans together. They were then placed on a dolly and transported from the brewery into the restaurant area. After all the cans (400 cases about 9,600 cans) were inventoried, they would be placed on the truck for distribution.

The Fairweather Lodge/Fairweather Training Lodge in Dubois held the first annual Golf Ball Drop event on September 10, 2016. It took place at Kenterra Golf Course in DuBois PA. The event was held to raise funds to provide training opportunities to Fairweather Lodge/Fairweather Training Lodge members in Clearfield and Jefferson Counties. The grand prize was \$1,000.00 along with many other prizes donated by local businesses. The event was a huge success!!
